With regards to the subject matter mentioned above, I am an interested person with great ambition and drive to pursue the above career with your company would like to lodge my application for your consideration.

I have a total of seventeen (17) years of work experience as a power station technician under my belt.

I worked my way up as a trainee up to senior tradesman and occupied shift supervisor position with PNG Power Limited. I worked at different Diesel and Hydro power stations owned and operated by this government owned power company.

I left PNG Power Limited in 2011 and joined Newcrest Mining Limited as power station technician. During my four (4) years stint with them, I worked in DPS(Diesel Power Station) ,IPS(Interim Power Station) , Cube Power Station and Geothermal Power Stations owned and operated by Newcrest Mining Limited , Lihir.
