## A. Technical Part

### 1. Qualification

#### 1.1 Update of Information

The Proposer and any subcontractors shall meet or continue to meet the criteria used at the time of Initial Selection.

#### 1.2 Financial Resources

Using the relevant Form No FIN 3.3 in Section IV, Proposal Forms, the Proposer must demonstrate access to, or availability of, financial resources such as liquid assets, unencumbered real assets, lines of credit, and other financial means, other than any contractual advance payments to meet:

(i) the following cash-flow requirement:

AUD \$ 8,000,000 for the first twelve (12) months of the contract,

and

(ii) the overall cash flow requirements for this contract and its current works commitment.

#### 1.3 Experience

Criteria	Compliance Requirements				Documents
	Single Entity Requirements	Joint Venture Requirements			Submission Requirements
		All Members Combined	Each Member	One Member	

##### 1.3.1 General Experience

Criteria	Single Entity Requirements	All Members Combined	Each Member	One Member	Documents
Experience under construction contracts in the role of prime contractor, JV member, subcontractor, or management contractor for at least the last (5) years prior to the bid submission deadline.	Must meet requirement	N/A	Must meet requirement	N/A	Form EXP-1

##### 1.3.2 (a) Specific Experience

Criteria	Single Entity Requirements	All Members Combined	Each Member	One Member	Documents
A minimum number of (3) similar turnkey	Must meet requirement	Must meet requirement <sup>3</sup>	N/A	N/A	Form EXP-2(a)

<sup>3</sup> In the case of JV, the value of contracts completed by its members shall not be aggregated to determine whether the requirement of the minimum value of a single contract has been met. Instead, each contract performed by a member

<p>contracts that have been satisfactorily and substantially<sup>1</sup> completed as a prime contractor, joint venture member<sup>2</sup>, management contractor or subcontractor within the last (5) years each of minimum value of US\$15,000,000, but with a cumulative value of all contracts equal to or more than US\$70,000,000. The similarity shall be based on the physical size, complexity, methods, technology or other characteristics as described in Part 2 (Employer's Requirements)</p>

**1.4 Contractor's Representative and Key Personnel**

The Proposer must demonstrate that it will have a suitably qualified Contractor's Representative and suitably qualified (and in adequate numbers) minimum Key Personnel, as described in the Employer's Requirements.

The Proposer shall provide details of the Contractor's Representative and Key Personnel and such other Key Personnel that the Proposer considers appropriate, together with their academic qualifications and work experience. The Proposer shall complete the relevant Forms in Section IV, Proposal Forms.

contributing to meeting the requirement shall satisfy the minimum value of a single contract as required for single entity. In determining whether the JV meets the requirement of total number of contracts, only the number of contracts completed by members, each of value equal or more than the minimum value required, shall be aggregated.

<sup>1</sup> Substantial completion shall be based on 80% or more of the contract completed.

<sup>2</sup> For contracts under which the Proposer participated as a joint venture member or sub-contractor, only the Proposer's role and responsibilities shall be considered to meet this requirement.

### 1.5 Equipment

The Proposer shall provide its strategy for acquiring and maintaining the key equipment that may be needed to execute the Works in accordance with the Work Program.

The Proposer shall provide details in the relevant Form in Section IV.

### 1.6 Subcontractors

Any Specialized Sub-contractor identified at the time of Initial Selection shall continue to meet the applicable requirements.

Any other additional subcontractors for the following major activities/ subactivities must meet the following minimum criteria:

[Activity/ Subactivity No.]	Description of Item	Minimum Criteria to be met
1		
2		
3		
...		

## 2. Evaluation of Technical Part (ITP 31)

The technical factors, and sub factors if any, to be evaluated and the scores to be given to each technical factor and sub factors are specified in the PDS ITP 31.2.

### Technical proposal scoring methodology

1. Each criteria shall be rated based on the following approach:
  - a. For Criteria 1-5:

Rating	Description of Rating of Scores
Excellent 100%	Significantly exceeds requirements. Exceptional demonstration by the Proposer showing it has the relevant experience, ability, understanding, skills and resources required to properly delivery the Project on time. Response identifies factors that could offer potential added value. Excellent supporting evidence provided.
Good 80%	Exceeds the requirements and demonstrates an above average understanding of the Proposer showing it has the relevant experience, ability, understanding, skills and resources required to deliver the Project on time. Good supporting evidence provided.

Acceptable 70%	Satisfies the requirements. The Proposer has demonstrated it has relevant experience, the ability, understanding, skills and resources necessary to deliver the Project on time. <b>Sufficient supporting evidence is provided.</b>
Unacceptable 50%	The submission does not satisfy the requirements, and there are identified deficiencies.
Objectionable 20%	The submission is significantly below the requirements or is absent. There are major reservations concerning the Proposer's relevant experience, the ability, understanding, skills and resources necessary to deliver the project on time. Little or no supporting evidence is provided.

b. For Criteria 6 (Past Experience):

Rating	Description of Rating of Scores
Excellent 100%	Significantly exceeds requirements. Exceptional demonstration by the Proposer showing it has previously implemented more than 10 similar projects.
Good 80%	Exceeds the requirements. Above average demonstration by the Proposer showing it has previously implemented more than five similar projects.
Acceptable 70%	Satisfies the requirements. The Proposer has previously implemented at least one contract or substantially completed a contract of similar nature.
Some reservations 50%	The submission does not fully meet the requirements. The Proposer was just recently awarded a similar contract.
Serious reservations 20%	Significantly below the requirements or is absent. There are major reservations concerning the Proposer's relevant experience. The Proposer has participated in a contract of similar size but involvement is limited to only design or build/construct portions, or only for a single component.

2. Proposers must achieve a minimum passing score of 70% for each criteria to be considered substantially responsive.

The score for each sub- factor (i) within a factor (j) will be combined with the scores of sub- factors in the same factor as a weighted sum to form the Factor Technical Score using the following formula:

$$S_j \equiv \sum_{i=1}^k t_{ji} * w_{ji}$$

where:

$t_{ji}$  = the technical score for sub- factor "i" in factor "j"

$w_{ji}$  = the weight of sub- factor "i" in factor "j",

$k$  = the number of scored sub-factors in factor "j"

and  $\sum_{i=1}^k w_{ji} = 1$

- (f) The Factor Technical Scores will be combined in a weighted sum to form the total Technical Proposal Score using the following formula:

$$T \equiv \sum_{j=1}^n S_j * W_j$$

where:

$S_j$  = the Factor Technical Score of factor "j"

$W_j$  = the weight of factor "j" as specified in the PDS

$n$  = the number of Factors

$$\text{and } \sum_{j=1}^n W_j = 1$$

## **B. Financial Part**

### **1. Margin of Preference**

Not applicable.

### **2. Evaluation of Financial Part (ITP 40.1(f) )**

The following factors and methods will apply:

#### **(a) Time Schedule**

Time for completion of the Works from the Commencement Date shall be between **xxx** days minimum and 598 days maximum. The adjustment rate in the event of completion beyond the minimum period shall be 0.5 (%) for each week of delay from that minimum period. No credit will be given for completion earlier than the minimum designated period. Proposals offering a completion date beyond the maximum designated period shall be rejected.

#### **(b) Life Cycle Costs**

Life cycle costing shall not apply.

#### **(c) Specific additional criteria**

Not applicable.

#### **(d) Multiple Contracts (ITP 40.3)**

Not Applicable.

## **C. Combined Evaluation**

The Employer will evaluate and compare the Proposals that have been determined to be substantially responsive.

An Evaluated Proposal Score (B) will be calculated for each responsive Proposal using the following formula, which permits a comprehensive assessment of the evaluated cost and the technical merits of each Proposal:

$$B = \frac{C_{low}}{C} * X * 100 + \frac{T}{T_{high}} * (1 - X) * 100$$

where

$C$  = Evaluated Proposal Cost

$C_{low}$  = The lowest of all Evaluated Proposal Cost among responsive Proposals

$T$  = the total Technical Score awarded to the Proposal

$T_{high}$  = the Technical Score achieved by the Proposal that was scored best among all responsive Proposals

$X$  = weight for Cost as specified **in the PDS**

The Proposal with the best evaluated Proposal Score (B) among responsive Proposals shall be the Most Advantageous Proposal provided the Proposer is qualified to perform the Contract.

Dear Sir or Madam:

We, the undersigned Proposer, hereby submit our Proposal, in two parts, namely:

- (a) the Technical Part, and
- (b) The Financial Part.

Having examined the RFP Documents, including any Addenda issued in accordance with ITP 8, we, the undersigned, offer to execute the Works to provide detailed engineering, procurement, construction, installation, and commissioning services for the following facilities:

- A new 35 km 132 kV double-circuit transmission line to connect the existing PNG Power Ltd. Moitaka station to the Edevu Hydropower station being developed by PNG Hydro Ltd.
- Two (2) new 132 kV/66 kV bays extension to the Moitaka substation.
- A new 66 kV/11 kV substation at Gerehu to integrate into the existing L546 66 kV single-circuit line.

- A new 132 kV substation at Edevu with one (1) bay to connect to the Edevu Hydropower station and two (2) bays to connect to the Moitaka station

in full conformity with the said RFP Documents, and any Addenda.

We undertake, if our Proposal is accepted, to commence the Works and achieve Completion within the respective times stated in the RFP Documents.

We hereby certify that we, including any subcontractors for any part of the contract, meet the eligibility requirements and have no conflict of interest in accordance with **ITP 4**.

- A new 132 kV substation at Edevu with one (1) bay to connect to the Edevu Hydropower station and two (2) bays to connect to the Moitaka station,

in full conformity with the said RFP Documents, and any Addenda for the total Proposal Price, excluding any discounts offered as follows:

*[Insert one of the options below as appropriate]*

Option 1, in case of one lot: Total price: *[insert the total price of the Proposal in words and figures, indicating the various amounts and the respective currencies];*

Or

Option 2, in case of multiple lots: (a) Total price of each lot *[insert the total price of each lot in words and figures, indicating the various amounts and the respective currencies];* and (b) Total price of all lots (sum of all lots) *[insert the total price of all lots in words and figures, indicating the various amounts and the respective currencies];*

The discounts offered and the methodology for their application is:

- (i) The discounts offered are: *[Specify in detail each discount offered]*
- (ii) The exact method of calculations to determine the net price after application of discounts is shown below: *[Specify in detail the method that shall be used to apply the discounts];*

If our Proposal is accepted, we undertake to provide an advance payment security, and a Performance Security in the forms, in the amounts, and within the times specified in the RFP Documents.

We agree to abide by this Proposal, which, in accordance with **ITP 12** and **ITP 13**, consists of this letter (Letter of Proposal – Financial part) and the enclosures listed below, until [ insert day, month and year in accordance with PDS 20.1], and it shall remain binding upon us and may be accepted by you at any time on or before this date.

**Commissions, gratuities and fees:** We have paid, or will pay the following commissions, gratuities, or fees with respect to the RFP process or execution of the Contract: *[insert complete name of each Recipient, its full address, the reason for which each commission or gratuity was paid and the amount and currency of each such commission or gratuity].*

Name of Recipient	Address	Reason	Amount

(If none has been paid or is to be paid, indicate “none.”)

Until the formal final Contract is prepared and executed between us, this Proposal, together with your written acceptance thereof included in your Letter of Acceptance, shall constitute a binding contract between us.

## Appendix to Proposal

### Schedule of Cost Indexation

If in accordance with GC 13.7, prices shall be adjustable, the following method shall be used to calculate the price adjustment:

Prices payable to the Contractor, in accordance with the Contract, shall be subject to adjustment during performance of the Contract to reflect changes in the cost of labor and material components, in accordance with the following formula:

$$P_n = a + b L_n / L_o + c E_n / E_o + d M_n / M_o + \dots$$

where:

“ $P_n$ ” is the adjustment multiplier to be applied to the estimated contract value in the relevant currency of the work carried out in period “ $n$ ”, this period being a month unless otherwise stated in the Contract Data;

“ $a$ ” is a fixed coefficient, stated in the relevant table of adjustment data, representing the non-adjustable portion in contractual payments;

“ $b$ ”, “ $c$ ”, “ $d$ ”, ... are coefficients representing the estimated proportion of each cost element related to the execution of the Works as stated in the relevant table of adjustment data; such tabulated cost elements may be indicative of resources such as labour, equipment and materials;

“ $L_n$ ”, “ $E_n$ ”, “ $M_n$ ”, ... are the current cost indices or reference prices for period “ $n$ ”, expressed in the relevant currency of payment, each of which is applicable to the relevant tabulated cost element on the date 49 days prior to the last day of the period (to which the particular Payment Certificate relates); and

“ $L_o$ ”, “ $E_o$ ”, “ $M_o$ ”, ... are the base cost indices or reference prices, expressed in the relevant currency of payment, each of which is applicable to the relevant tabulated cost element on the Base Date.

The cost indices or reference prices stated in the Table of Adjustment Data shall be used. If their source is in doubt, it shall be determined by the Engineer. For this purpose, reference shall be made to the values of the indices at stated dates (quoted in the fourth and fifth columns respectively of the table).

If the currency in which the Contract price is expressed is different from the currency of the country of origin of the labour and/or materials indices, a correction factor will be applied to avoid incorrect adjustments of the Contract price. The correction factor shall be:  $Z_0 / Z_1$ , where,

$Z_0$  = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Contract Price on the Base date, and

$Z_1$  = the number of units of currency of the origin of the indices which equal to one unit of the currency of the Contract Price on the Date of Adjustment.

## Table of Adjustment Data

*[In Tables A, B, and C, below, the Proposer shall (a) indicate its amount of local currency payment, (b) indicate its proposed source and base values of indices for the different foreign currency elements of cost, (c) derive its proposed weightings for local and foreign currency payment, and (d) list the exchange rates used in the currency conversion. In the case of very large and/or complex works contracts, it may be necessary to specify several families of price adjustment formulae corresponding to the different works involved.]*

## **Schedule of Priced Activities and Sub-activities**

The total of the prices of the activities in the Schedule of Priced Activities is the Proposer's offer to complete the works on a "single responsibility" basis.

The price of any activity or sub-activity that the Proposer may have omitted is deemed to be included in the price of other activities or sub-activities in the Schedule of Priced Activities and Sub-activities and will not be paid for separately by the Employer.

Pricing Schedule

## Daywork Schedule

### General

1. Reference is made to Sub-Clause 13.5 of the General Conditions. Work shall not be executed on a daywork basis except by written order of the Engineer. Proposers shall enter basic rates for daywork items in the Schedules, which rates shall apply to any quantity of daywork ordered by the Engineer. Nominal quantities have been indicated against each item of daywork, and the extended total for Daywork shall be carried forward as a Provisional Sum to the Summary Total Proposal Amount. Unless otherwise adjusted, payments for daywork shall be subject to price adjustment in accordance with the provisions in the Conditions of Contract.

### Daywork Labour

2. In calculating payments due to the Contractor for the execution of daywork, the hours for labour will be reckoned from the time of arrival of the labour at the job site to execute the particular item of daywork to the time of departure from the job site, but excluding meal breaks and rest periods. Only the time of classes of labour directly doing work ordered by the Engineer and for which they are competent to perform will be measured. The time of gangers (charge hands) actually doing work with the gangs will also be measured but not the time of foremen or other supervisory personnel.
3. The Contractor shall be entitled to payment in respect of the total time that labour is employed on daywork, calculated at the basic rates entered by the Contractor in the **Schedule of Daywork Rates: 1. Labour**, together with an additional percentage payment on basic rates representing the Contractor's profit, overheads, etc., as described below:
  - (a) The basic rates for labour shall cover all direct costs to the Contractor, including (but not limited to) the amount of wages paid to such labour, transportation time, overtime, subsistence allowances, and any sums paid to or on behalf of such labour for social benefits in accordance with the laws of the Independent State of Papua New Guinea. The basic rates will be payable in local currency only.
  - (b) The additional percentage payment to be quoted by the Proposer and applied to costs incurred under (a) above shall be deemed to cover the Contractor's profit, overheads, superintendence, liabilities, and insurances and allowances to labour, timekeeping, and clerical and office work, the use of consumable stores, water, lighting, and power; the use and repair of stagings, scaffolding, workshops, and stores, portable power tools, manual plant, and tools; supervision by the Contractor's staff, foremen, and other supervisory personnel; and charges incidental to the foregoing. Payments under this item shall be made in the following currency proportions:
    - (i) foreign: \_\_\_ percent (to be stated by proposer).<sup>1</sup>

---

<sup>1</sup> The Proposer shall state the percentage in a common foreign currency equivalent required for payment and the exchange rates and official sources used.

- (ii) local: \_\_\_\_\_ percent (to be stated by proposer).

### Daywork Materials

4. The Contractor shall be entitled to payment in respect of materials used for daywork (except for materials for which the cost is included in the percentage addition to labour costs as detailed heretofore), at the basic rates entered by the Contractor in the **Schedule of Daywork Rates: 2. Materials**, together with an additional percentage payment on the basic rates to cover overhead charges and profit, as follows:
- (a) the basic rates for materials shall be calculated on the basis of the invoiced price, freight, insurance, handling expenses, damage, losses, etc., and shall provide for delivery to store for stockpiling at the Site. The basic rates shall be stated in local currency, but payment will be made in the currency or currencies expended upon presentation of supporting documentation.
  - (b) the additional percentage payment shall be quoted by the Proposer and applied to the equivalent local currency payments made under (a) above. Payments under this item will be made in the following currency proportions:
    - (i) foreign: \_\_\_\_ percent (to be stated by the proposer);<sup>2</sup>
    - (ii) local: \_\_\_\_\_ percent (to be stated by the proposer);
  - (c) the cost of hauling materials for use on work ordered to be carried out as daywork from the store or stockpile on the Site to the place where it is to be used will be paid in accordance with the terms for Labour and Construction in this schedule.

### Daywork Contractor's Equipment

5. The Contractor shall be entitled to payments in respect of Contractor's Equipment already on Site and employed on daywork at the basic rental rates entered by the Contractor in the **Schedule of Daywork Rates: 3. Contractor's Equipment**. Said rates shall be deemed to include due and complete allowance for depreciation, interest, indemnity, and insurance, repairs, maintenance, supplies, fuel, lubricants, and other consumables, and all overhead, profit, and administrative costs related to the use of such equipment. The cost of drivers, operators, and assistants will be paid for separately as described under the section on Daywork Labour.
6. In calculating the payment due to the Contractor for Contractor's Equipment employed on daywork, only the actual number of working hours will be eligible for payment.
7. The basic rental rates for Contractor's Equipment employed on daywork shall be stated in local currency, but payments to the Contractor will be made in currency proportions, as follows:

---

<sup>2</sup> The Proposer shall state the percentage in a single foreign currency equivalent and the exchange rates and official sources used.

- (a) foreign: \_\_\_\_\_ percent (to be stated by the proposer).<sup>3</sup>
- (b) local: \_\_\_\_\_ percent (to be stated by the proposer).

---

<sup>3</sup> The Proposer shall state the percentage in a single foreign currency equivalent and the exchange rates and official sources used.
